# Lesson 1: Adding with Regrouping

---

## What is Regrouping (Carrying)?

When adding, if a column's sum is 10 or more, we regroup by writing the ones digit and carrying the tens digit to the next column.

## Steps to Add with Regrouping:

1. Write the numbers in columns, lining up ones, tens, and hundreds.
2. Start at the ONES column (right side). Add the digits.
  - If the sum is 9 or less → write it below the line.
  - If the sum is 10 or more → write the ones digit below, carry the tens digit.
3. Move to the TENS column. Add all digits (including any carry).
  - Regroup again if needed.
4. Move to the HUNDREDS column. Add all digits (including any carry).

## Key Rules:

- Always start from the right (ones place)
- Write carried numbers small above the next column
- Check by estimating: round to the nearest hundred and see if your answer is reasonable

## Worked Examples: Addition

---

**Example 1:**  $278 + 465$ 

Ones:  $8+5=13$  (write 3, carry 1) | Tens:  $7+6+1=14$  (write 4, carry 1) | Hundreds:  $2+4+1=7$

**Answer: 743**

**Example 2:**  $589 + 234$ 

Ones:  $9+4=13$  (write 3, carry 1) | Tens:  $8+3+1=12$  (write 2, carry 1) | Hundreds:  $5+2+1=8$

**Answer: 823**

**Example 3:**  $467 + 358$ 

Ones:  $7+8=15$  (write 5, carry 1) | Tens:  $6+5+1=12$  (write 2, carry 1) | Hundreds:  $4+3+1=8$

**Answer: 825**

**Example 4:**  $196 + 847$ 

Ones:  $6+7=13$  (write 3, carry 1) | Tens:  $9+4+1=14$  (write 4, carry 1) | Hundreds:  $1+8+1=10$

**Answer: 1,043**

**Example 5:**  $753 + 489$ 

Ones:  $3+9=12$  (write 2, carry 1) | Tens:  $5+8+1=14$  (write 4, carry 1) | Hundreds:  $7+4+1=12$

**Answer: 1,242**

# Lesson 2: Subtracting with Regrouping

---

## What is Borrowing (Regrouping in Subtraction)?

When the top digit is smaller than the bottom digit, we borrow from the next place value.

## Steps to Subtract with Regrouping:

1. Write the LARGER number on top. Line up place values.
2. Start at the ONES column. Can you subtract the bottom from the top?
  - If YES → subtract normally.
  - If NO → you must borrow!
3. To borrow:
  - Cross out the digit in the NEXT column and reduce it by 1.
  - Add 10 to the current column's top digit.
  - Now subtract!
4. If the next column is 0, keep going left until you find a non-zero digit.

## Key Rules:

- The larger number always goes on top
- Check your answer: answer + bottom number should = top number
- Borrowing across zeros requires chaining (e.g.,  $500 - 237$ )

## Worked Examples: Subtraction

---

### Example 1: $542 - 287$

Ones:  $2 < 7$ , borrow  $\rightarrow 12 - 7 = 5$  | Tens:  $3 < 8$ , borrow  $\rightarrow 13 - 8 = 5$  |  
Hundreds:  $4 - 2 = 2$

**Answer: 255**

### Example 2: $806 - 439$

Ones:  $6 < 9$ , borrow  $\rightarrow 16 - 9 = 7$  | Tens:  $9 - 3 = 6$  (after borrow from 8) | Hundreds:  $7 - 4 = 3$

**Answer: 367**

### Example 3: $700 - 356$

Borrow across zeros:  $6|9|10 \rightarrow$  Ones:  $10 - 6 = 4$  | Tens:  $9 - 5 = 4$  | Hundreds:  $6 - 3 = 3$

**Answer: 344**

### Example 4: $923 - 478$

Ones:  $3 < 8$ , borrow  $\rightarrow 13 - 8 = 5$  | Tens:  $1 < 7$ , borrow  $\rightarrow 11 - 7 = 4$  |  
Hundreds:  $8 - 4 = 4$

**Answer: 445**

### Example 5: $615 - 267$

Ones:  $5 < 7$ , borrow  $\rightarrow 15 - 7 = 8$  | Tens:  $0 < 6$ , borrow  $\rightarrow 10 - 6 = 4$  |  
Hundreds:  $5 - 2 = 3$

**Answer: 348**

# Tips & Strategies for Success

---

## Before You Start:

- Read the problem carefully — is it addition or subtraction?
- Estimate first! Round to the nearest hundred to predict your answer.
- Write neatly — keep digits in straight columns!

## Common Mistakes to Avoid:

- Forgetting to add the carried number
- Carrying the wrong digit (carry the TENS, write the ONES)
- Forgetting to reduce the borrowed-from column by 1
- Not borrowing across zeros (remember: go left until you find a non-zero!)

## How to Check Your Work:

- For addition: Does your answer make sense? Is it bigger than both numbers?
- For subtraction: Add your answer to the bottom number — do you get the top number?
- Use estimation:  $347 + 285 \approx 350 + 300 = 650$ . Your answer of 632 is close. ✓

## Practice Strategy:

- Do 5 problems per day — consistency is key!

- Time yourself to build speed
- Circle any problems you got wrong and try them again tomorrow

# Practice Drill: 40 Problems

---

**Directions:** Solve each problem carefully. Show your work on a separate sheet if needed.

## ADDITION (Problems 1-20)

1.  $299 + 620 =$  \_\_\_\_\_

2.  $615 + 328 =$  \_\_\_\_\_

3.  $872 + 552 =$  \_\_\_\_\_

4.  $899 + 508 =$  \_\_\_\_\_

5.  $593 + 669 =$  \_\_\_\_\_

6.  $262 + 695 =$  \_\_\_\_\_

7.  $274 + 232 =$  \_\_\_\_\_

8.  $616 + 419 =$  \_\_\_\_\_

9.  $199 + 824 =$  \_\_\_\_\_

10.  $813 + 359 =$  \_\_\_\_\_

**Addition (continued)**

11.  $493 + 385 =$  \_\_\_\_\_

12.  $466 + 358 =$  \_\_\_\_\_

13.  $332 + 294 =$  \_\_\_\_\_

14.  $343 + 505 =$  \_\_\_\_\_

15.  $528 + 791 =$  \_\_\_\_\_

16.  $569 + 365 =$  \_\_\_\_\_

17.  $562 + 622 =$  \_\_\_\_\_

18.  $718 + 432 =$  \_\_\_\_\_

19.  $534 + 314 =$  \_\_\_\_\_

20.  $814 + 803 =$  \_\_\_\_\_

**SUBTRACTION (Problems 21-40)**

21.  $527 - 242 =$  \_\_\_\_\_

22.  $405 - 304 =$  \_\_\_\_\_

23.  $805 - 301 =$  \_\_\_\_\_

24.  $979 - 316 =$  \_\_\_\_\_

25.  $597 - 235 =$  \_\_\_\_\_

26.  $426 - 320 =$  \_\_\_\_\_

27.  $642 - 379 =$  \_\_\_\_\_

28.  $796 - 279 =$  \_\_\_\_\_

29.  $967 - 203 =$  \_\_\_\_\_

30.  $653 - 517 =$  \_\_\_\_\_

**Subtraction (continued)**

31.  $919 - 446 =$  \_\_\_\_\_

32.  $746 - 690 =$  \_\_\_\_\_

33.  $751 - 521 =$  \_\_\_\_\_

34.  $895 - 561 =$  \_\_\_\_\_

35.  $463 - 201 =$  \_\_\_\_\_

36.  $707 - 483 =$  \_\_\_\_\_

37.  $844 - 408 =$  \_\_\_\_\_

38.  $645 - 583 =$  \_\_\_\_\_

39.  $847 - 675 =$  \_\_\_\_\_

40.  $905 - 746 =$  \_\_\_\_\_

# ANSWER KEY

---

## Addition Answers (1-20)

1.  $299 + 620 = 919$
2.  $615 + 328 = 943$
3.  $872 + 552 = 1424$
4.  $899 + 508 = 1407$
5.  $593 + 669 = 1262$
6.  $262 + 695 = 957$
7.  $274 + 232 = 506$
8.  $616 + 419 = 1035$
9.  $199 + 824 = 1023$
10.  $813 + 359 = 1172$
11.  $493 + 385 = 878$
12.  $466 + 358 = 824$
13.  $332 + 294 = 626$
14.  $343 + 505 = 848$
15.  $528 + 791 = 1319$
16.  $569 + 365 = 934$
17.  $562 + 622 = 1184$
18.  $718 + 432 = 1150$
19.  $534 + 314 = 848$
20.  $814 + 803 = 1617$

**Subtraction Answers (21-40)**

21.  $527 - 242 = 285$

22.  $405 - 304 = 101$

23.  $805 - 301 = 504$

24.  $979 - 316 = 663$

25.  $597 - 235 = 362$

26.  $426 - 320 = 106$

27.  $642 - 379 = 263$

28.  $796 - 279 = 517$

29.  $967 - 203 = 764$

30.  $653 - 517 = 136$

31.  $919 - 446 = 473$

32.  $746 - 690 = 56$

33.  $751 - 521 = 230$

34.  $895 - 561 = 334$

35.  $463 - 201 = 262$

36.  $707 - 483 = 224$

37.  $844 - 408 = 436$

38.  $645 - 583 = 62$

39.  $847 - 675 = 172$

40.  $905 - 746 = 159$
